

I have just mentioned 50 companies only, who have minimum 10 Billion \$ (USD) worth of Assets who are some of our largest employers. I can give at least another 500 companies who are below 10 Billion \$ worth. Look at just the Net profit p.a of Life Insurance Corporation (LIC), Reliance Industries, Tata Consultancy Service & ONGC.

Many Indian companies have more Assets which is valued faar more than your country Forex reserves. LIC, Reliance & SBI with their assets & yearly earnings can buy out Pakistan if they wish. Indian Railways employs 1.3 Million people. Can you imagine State Bank of India holds assets worth equivalent to our country's forex reserves.

Sl. No.	Name of the Organisation	Yearly Net Profit - US \$	No. of Employees	Assets US \$
1	Indian Railways	1 Billion	1,310,000	Gov.t
