Transmittal No. 13-46

United Arab Emirates (UAE) – Blanket Order Training

WASHINGTON, Jan 8, 2014 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the United Arab Emirates (UAE) for blanket order training and associated training and logistical support for an estimated cost of \$150 million.

The Government of the United Arab Emirates has requested a possible sale for follow on United States Marine Corps blanket order training, training support, and other related elements of program support for the United Arab Emirates Presidential Guard Command. The estimated cost is \$150 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East. The UAE continues host-nation support of vital U.S. forces stationed at Al Dhafra Air Base and plays a vital role in supporting U.S. regional interests.

The proposed sale will provide the continuation of U.S. Marine Corps training of the UAE's Presidential Guard for counterterrorism, counter-piracy, critical infrastructure protection, and national defense. The training also provides engagement opportunities through military exercises, training, and common equipment. The Presidential Guard currently uses these skills alongside U.S. forces, particularly in Afghanistan.

The proposed sale of this training will not alter the basic military balance in the region.

There will be no principal contractors associated with this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the permanent assignment of any U.S. Government or contractor representatives to the UAE. Training teams will travel to the country on a temporary basis.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 13-73

Israel – V-22B Block C Aircraft

WASHINGTON, Jan 14, 2014 – The Defense Security Cooperation Agency notified Congress January 13 of a possible Foreign Military Sale to Israel for V-22B Block C Aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$1.13 billion.

The Government of Israel (GOI) has requested a possible sale of 6 V-22B Block C Aircraft, 16 Rolls Royce AE1107C Engines, 6 AN/APR-39 Radar Warning Receiver Systems, 6 AN/ALE-47 Countermeasure Dispenser Systems, 6 AN/AAR-47 Missile Warning Systems, 6 AN/APX-123 Identification Friend or Foe Systems, 6 AN/ARN-153 Tactical Airborne Navigation Systems, 6 AN/ARN-147 Very High Frequency (VHF) Omni-directional Range (VOR) Instrument Landing System (ILS) Beacon Navigation Systems, 6 Multi-Band Radios, 6 AN/APN-194 Radar Altimeters, 6 AN/ASN-163 Miniature Airborne Global Positioning System (GPS) Receivers (MAGR), 36 AN/AVS-9 Night Vision Goggles, Joint Mission Planning System, support and test equipment, software, repair and return, aircraft ferry services, tanker support, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical support, and other elements of technical and program support. The estimated cost is \$1.13 billion.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale of V-22B aircraft will enhance and increase the Israel Defense Forces' search and rescue and special operations capabilities. The V-22B provides the capability to move personnel and equipment to areas not accessible by fixed wing lift assets. The GOI will have no difficulty absorbing this technology into its current aircraft inventory.

The proposed sale of these aircraft will not alter the basic military balance in the region.

The principal contractors involved with this proposed sale will be Bell and Boeing in California, MD via a joint venture arrangement with final aircraft assembly occurring in Amarillo, TX. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of up to thirty (30) U.S. Government or contractor representatives to Israel on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 13-67

Singapore – F-16 Block 52 Upgrade

WASHINGTON, Jan 14, 2014 – The Defense Security Cooperation Agency notified Congress January 13 of a possible Foreign Military Sale to Singapore for an upgrade of F-16 Block 52 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$2.43 billion.

The Government of Singapore has requested an upgrade of 60 F-16C/D/D+ aircraft. The upgrades will address reliability, supportability, and combat effectiveness concerns associated with its aging F-16 fleet. The items being procured in this proposed sale include:

- 70 Active Electronically Scanned Array Radars (AESA)
- 70 LN-260 Embedded Global Positioning System/Inertial Navigation Systems (GPS/INS)
- 70 Joint Helmet Mounted Cueing Systems (JHMCS)
- 70 APX-125 Advanced Identification Friend or Foe (IFF) Combined Interrogator Transponders
- 3 AIM-9X Block II Captive Air Training Missiles
- 3 TGM-65G Maverick Missiles for testing and integration
- 4 GBU-50 Guided Bomb Units (GBU) for testing and integration
- 5 GBU-38 Joint Direct Attack Munitions for testing and integration
- 3 CBU-105 (D-4)/B Sensor Fused Weapons for testing and integration
- 1 AIS Interface Test Adapters for software updates
- 1 Classified Computer Program Identification Numbers (CPINs)
- 4 GBU-49 Enhanced Paveways for testing and integration
- 2 DSU-38 Laser Seekers for testing and integration
- 6 GBU-12 Paveway II, Guidance Control Units

Also included are Modular Mission Computers, a software maintenance facility, cockpit multifunction displays, radios, secure communications, video recorders; a Joint Mission Planning System (JMPS); maintenance, repair and return, aircraft and ground support equipment, spare and repair parts, tool and test equipment; engine support equipment, publications and technical documentation; aerial refueling support, aircraft ferry services, flight test; personnel training and training equipment, site surveys, construction, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$2.43 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by increasing the ability of the Republic of Singapore to contribute to regional security. The proposed sale will improve the security of a strategic partner which has been, and continues to be, an important force for political stability and economic progress in the Asia Pacific region.

The proposed upgrade will improve both the capabilities and the reliability of the Republic of Singapore Air Force's (RSAF) aging fleet of F-16s. The improved capability, survivability, and reliability of newly upgraded F-16s will enhance the RSAF's ability to defend its borders and contribute to coalition operations with other allied forces. The RSAF will have no difficulty absorbing this additional equipment and support into its armed forces.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Libya – General Purpose Force Training

WASHINGTON, Jan 22, 2014 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Libya for General Purpose Force Training and associated equipment, parts, training and logistical support for an estimated cost of \$600 million.

The Government of Libya has requested a sale of training for a 6,000 to 8,000 person General Purpose Force. The training includes services for up to 8 years for training, facilities sustainment and improvements, personnel training and training equipment, 637 M4A4 carbines and small arms ammunition, U.S. Government and contractor technical and logistics support services, Organizational Clothing and Individual Equipment (OCIE), and other related elements of logistical and program support. The estimated cost is \$600 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Libya.

The proposed sale will enable Libya to develop, and train a General Purpose Force. The basic, collective and advanced training will be critical for establishing a professional and disciplined General Purpose Force used in protecting Libya's institutions, facilities, and personnel as well as keeping peace and security within Libya.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors are unknown at this time but will be determined during the competitive bid process. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of 350 U.S. Government and contractor personnel for up to 8 years to conduct training at the Novo Selo training site in Bulgaria.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq - AGM-114K/R Hellfire Missiles

WASHINGTON, Jan 23, 2014-The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq for AGM-114K/R Hellfire Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$82 million.

The Government of Iraq has requested a possible sale of 500 AGM-114K/R Hellfire missiles, Hellfire missile conversion, blast fragmentation sleeves, and installation kits, containers, transportation, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$82 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

Iraq will use the Hellfire missiles to help improve the Iraq Security Forces' capability to support current on-going ground operations. Iraq will also use this capability in future contingency operations. Iraq will have no difficulty absorbing these additional weapon systems into its armed forces.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation in Bethesda, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government and contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – Equipment in Support of a Direct Commercial Sale of F-16 Block 61 Aircraft

WASHINGTON, Jan 24, 2014 – The Defense Security Cooperation Agency notified Congress on Jan 23 of a possible Foreign Military Sale to the United Arab Emirates (UAE) for equipment in support of a Direct Commercial Sale of F-16 Block 61 Aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$270 million.

The United Arab Emirates (UAE) has requested a possible sale of equipment in support of its commercial purchase of 30 F-16 Block 61 aircraft and to support the upgrade of its existing F-16 Block 60 aircraft. Major Defense Equipment includes: 40 20mm M61A Guns; and 40 Embedded GPS Inertial Navigation Systems. Also included: Identification Friend or Foe Equipment; Joint Mission Planning System; night vision devices; Cartridge Activated Device/Propellant Activated Devices; Weapons Integration; spare and repair parts; tools and test equipment; personnel training and training equipment; publications and technical documentation; International Engine Management Program-Component Improvement Program; repair and return; aerial refueling support; ferry maintenance and services; site surveys; U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistics and program support. The estimated cost is \$270 million.

This proposed sale will contribute to the foreign policy and national security of the United States by to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve the UAE's capability to meet current and future regional threats. The UAE continues host-nation support of vital U.S. forces stationed at Al Dhafra Air Base; plays a vital role in supporting U.S. regional interests; and has proven to be a valued partner and an active participant in overseas contingency operations.

The sale of additional F-16s to the UAE is consistent with U.S. foreign policy and national security objectives. The UAE will have no difficulty absorbing this additional equipment and support into its armed forces.

The proposed sale of equipment, services, and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics in Ft. Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the assignment of additional U.S. Government or contractor representatives to the UAE. The actual number required to support the program will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq – Support for APACHE Lease

WASHINGTON, Jan 27, 2014-The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq for support for APACHE lease and associated equipment, parts, training and logistical support for an estimated cost of \$1.37 billion.

The Government of Iraq has requested a possible sale of 8 AN/AAR-57 Common Missile Warning System, 3 T-700-GE-701D engines, 3 AN/ASQ-170 Modernized Target Acquisition and Designation Sight (MTADS), 3 AN/AAQ-11 Modernized Pilot Night Vision Sensors (PNVS), 152 AGM-114 K-A HELLFIRE Missiles, 14 HELLFIRE M299 Launchers, 6 AN/APR-39A(V)4 Radar Warning Systems with training Universal Data Modems (UDM), 2 Embedded Global Positioning System Inertial Navigation System (EGI), 6 AN/AVR-2A/B Laser Warning Detectors, 12 M261 2.75 inch Rocket Launchers, M206 Infrared Countermeasure flares, M211 and M212 Advanced Infrared Countermeasure Munitions (AIRCМ) flares, Internal Auxiliary Fuel Systems (IAFS), Aviator's Night Vision Goggles, Aviation Mission Planning System, training ammunition, helmets, transportation, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, site surveys, U.S. Government and contractor technical assistance, and other related elements of program and logistics support. The estimated cost is \$1.37 billion.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the United States.

The proposed sale supports the strategic interests of the United States by providing Iraq with a critical capability to protect itself from terrorist and conventional threats. This will allow Iraqi Security Forces to begin training on the operation and maintenance of six leased U.S. APACHE helicopters in preparation of their receipt of new-build aircraft.

This proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in Mesa, Arizona, Lockheed Martin Corporation in Orlando, Florida, General Electric Company in Cincinnati, Ohio, and Robertson Fuel Systems, LLC, Tempe, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of 1 U.S. Government and 67 contractor representatives to travel to Iraq on an as-needed basis provide support and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq-AH-64E APACHE LONGBOW Attack Helicopters

WASHINGTON, Jan 27, 2014-The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq for AH-64E APACHE LONGBOW Attack Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$4.8 billion.

The Government of Iraq has requested a possible sale of 24 AH-64E APACHE LONGBOW Attack Helicopters, 56 T700-GE-701D Engines, 27 AN/ASQ-170 Modernized Target Acquisition and Designation Sight, 27 AN/AAR-11 Modernized Pilot Night Vision Sensors, 12 AN/APG-78 Fire Control Radars with Radar Electronics Unit (LONGBOW component), 28 AN/AAR-57(V)7 Common Missile Warning Systems, 28 AN/AVR-2B Laser Detecting Sets, 28 AN/APR-39A(V)4 or APR-39C(V)2 Radar Signal Detecting Sets, 28 AN/ALQ-136A(V)5 Radar Jammers, 52 AN/AVS-6, 90 Apache Aviator Integrated Helmets, 60 HELLFIRE Missile Launchers, and 480 AGM-114R HELLFIRE Missiles. Also included are AN/APR-48 Modernized Radar Frequency Interferometers, AN/APX-117 Identification Friend-or-Foe Transponders, Embedded Global Positioning Systems with Inertial Navigation with Multi Mode Receiver, MXF-4027 UHF/VHF Radios, 30mm Automatic Chain Guns, Aircraft Ground Power Units, 2.75 in Hydra Rockets, 30mm rounds, M211 and M212 Advanced Infrared Countermeasure Munitions flares, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, site surveys, U.S. government and contractor engineering, technical, and logistics support services, design and construction, and other related elements of logistics support. The estimated cost is \$4.8 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the United States.

This proposed sale supports the strategic interests of the United States by providing Iraq with a critical capability to protect itself from terrorist and conventional threats, to enhance the protection of key oil infrastructure and platforms, and to reinforce Iraqi sovereignty. This proposed sale of AH-64E APACHE helicopters will support Iraq's efforts to establish a fleet of multi-mission attack helicopters capable of meeting its requirements for close air support, armed reconnaissance and anti-tank warfare missions.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in Mesa, Arizona; Lockheed Martin Corporation in Orlando, Florida; General Electric Company in Cincinnati, Ohio; Lockheed Martin Mission Systems and Sensors in Owego, New York; Longbow Limited Liability Corporation in Orlando, Florida; and Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of three U.S. Government and two hundred contractor representatives to Iraq to support delivery of the Apache helicopters and provide support and equipment familiarization. In addition, Iraq has expressed an interest in a Technical Assistance Fielding Team for in-country pilot and maintenance training. To support the requirement a team of 12 personnel (one military team leader and 11 contractors) would be deployed to Iraq for approximately three years. Also, this program will require multiple trips involving U.S. Government and contractor personnel to participate in program and technical reviews, training and installation.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq – Air Traffic Control and Landing System

WASHINGTON, Feb 4, 2014 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq for Air Traffic Control and Landing Systems and associated equipment, parts, training and logistical support for an estimated cost of \$700 million.

The Government of Iraq has requested a proposed sale of commercially available FAA Air Traffic Control (ATC) Equipment Suite and Airfield Navigational Aids Suites to be installed at four bases (Tikrit, Al Basra, Al Kut, and Taji). The ATC Equipment Suite includes 4 ASR-11 Airport Surveillance Radars, 10 ATC Automation system with 10 controller consoles, 4 AutoTrac II Airfield Support and Navigation Suites, 2 Primary Search Radars and 2 Mono-pulse secondary surveillance radars. The Airfield Navigation Aids Suite includes 2 Very High Frequency Omni-directional Range (VORTAC) and 3 Instrument Landing Systems with Distance Measuring Equipment, 2 Airfield Lighting Systems with Flush Mounted Lights for the runway and taxiways, Air Traffic Control Tower Equipment Suite. Also provided are site surveys, system integration, installation, testing, repair and return, facilities, warranties, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics and program support. The estimated cost is \$700 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the United States.

The proposed sale will contribute to Iraq's continued efforts toward rebuilding its airfield systems at Tikrit, Al Basra, Al Kut, and Taji Air Bases for near-term basing of multiple aircraft. The renovations and upgrades to the airfields and systems will allow for greater ease in launch and recovery of aircraft and will enhance the overall sustainment to aircraft and affiliated systems. This equipment aids Iraq's continuing reconstruction effort and directly improves Iraq's ability to control its own airspace.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is unknown and will be determined through a competitive process. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Norway – AIM-120C-7 AMRAAM Missiles

WASHINGTON, Feb 26, 2014 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Norway for AIM-120C-7 AMRAAM Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$80 million.

The Government of Norway has requested a possible sale of 36 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 8 Captive Air Training Missiles (CATMs), containers, support equipment, spare and repair parts, Common Munitions Bit/Reprogramming Equipment (CMBRE), publications and technical documentation, U.S. Government and contractor logistics support services, and other related elements of logistics support. The estimated cost is \$80 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally which has been, and continues to be, an important force for political stability and economic progress in Europe.

The Government of Norway requires these capabilities for mutual defense, regional security, force modernization, and U.S. and NATO interoperability. This sale will enhance the Royal Norwegian Air Force's ability to defend Norway against future threats and contribute to current and future NATO operations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Corporation in Waltham, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 13-76

Pakistan – C-130 Fleet Upgrade Program

WASHINGTON, Mar 11, 2014 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Pakistan for a C-130 Fleet Upgrade Program and associated equipment, parts, training and logistical support for an estimated cost of \$100 million.

The Government of Pakistan has requested a possible sale of C-130B/E avionics upgrades, engine management and mechanical upgrades, cargo delivery system installation, and replacement of outer wing sets on six aircraft. Also included are spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for regional stability and U.S. national security goals in the region.

The proposed sale will facilitate the continued operation of the Pakistan's Air Force C-130 fleet (five C-130B and eleven C-130E models) for counter-insurgency/counter-terrorism flights; regional humanitarian operations; troop transport; and Intelligence, Surveillance, and Reconnaissance (ISR) missions within Pakistan and in the region. The fleet is facing airworthiness and obsolescence issues, and will require upgrades and repairs for continued operation and effectiveness. The proposed modernization of the C-130 fleet should ensure continued viability for an additional 10-15 years.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is unknown at this time and will be determined through a competitive bid process.

There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 14-06

Korea – AIM-9X-2 Sidewinder Missiles

WASHINGTON, Apr 7, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Korea for AIM-9X-2 Sidewinder Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$98 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on April 7, 2014.

The Government of the Republic of Korea (ROK) has requested a possible sale of 76 AIM-9X-2 Sidewinder Block II All-Up-Round Missiles, 24 CATM-9X-2 Captive Air Training Missiles, 8 CATM-9X-2 Block II Missile Guidance Units, and 4 AIM-9X-2 Block II Tactical Guidance Units, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics and program support. The estimated cost is \$98 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by meeting the legitimate security and defense needs of an ally and partner nation. The ROK continues to be an important force for peace, political stability and economic progress in North East Asia.

The ROK intends to use these AIM-9X missiles to supplement its existing missile capability and current weapon inventory. This sale will contribute to the ROK's force modernization goals and enhance interoperability with U.S. forces. The ROK will use this enhanced capability to strengthen its homeland defense and deter regional threats.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset requirements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to Korea. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis in conjunction with program technical and management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-07

Germany – P-3C Aircraft Upgrades and Related Support

WASHINGTON, Apr 11, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Germany for P-3C aircraft upgrades and associated equipment, parts, training and logistical support for an estimated cost of \$250 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on April 11, 2014.

The Government of Germany has requested a possible sale for the procurement, integration, and installation of hardware and software to upgrade the aircraft mission computer and acoustic systems, and non-integrated simulator equipment on 8 P-3C aircraft. The hardware and software include A (structural and electrical) and B (Weapon Replaceable Assemblies) kits for future integration into the simulator. Also included are the design, development, integration, testing and installation of a ground-based mission support system (which includes the Portable Aircraft Support System and Fast Time Analyzer System); validation and acceptance; spare and repair parts; support equipment; personnel training and training equipment; publications and technical documentation; U.S. Government and contractor technical, engineering, and logistics support services; and other related elements of logistics support. The estimated cost is \$250 million.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the military capabilities of a NATO ally and enhancing standardization and interoperability with U.S. forces.

This proposed sale will update hardware and software to ensure the P-3 aircraft maintain operational capability. The upgrades will enhance Germany's ability to participate in future coalition operations and will promote continued interoperability. Germany will have no difficulty absorbing this upgraded equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin Mission Systems and Training in Owego, New York; General Dynamics in Bloomington, Minnesota; Lockheed Martin Aeronautics Company in Marietta, Georgia; and Lockheed Martin Mission Systems and Training in Manassas, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. government or contractor representatives to Germany.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-10

Mexico – UH-60M Black Hawk Helicopters

WASHINGTON, Apr 21, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Mexico for UH-60M Black Hawk Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$680 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on April 17, 2014.

The Government of Mexico has requested a possible sale of 18 UH-60M Black Hawk Helicopters in standard USG configuration with designated unique equipment and Government Furnished Equipment (GFE), 40 T700-GE-701D Engines (36 installed and 4 spares), 42 Embedded Global Positioning Systems/Inertial Navigation Systems (36 installed and 6 spares), 36 M134 7.62mm Machine Guns, 5 Aviation Mission Planning Systems, 18 AN/AVS-9 Night Vision Goggles, and 1 Aviation Ground Power Unit. Also included are communication security equipment including AN/ARC-210 RT-8100 series radios, Identification Friend or Foe (IFF) systems, aircraft warranty, air worthiness support, facility construction, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, site surveys, tool and test equipment, U.S. Government and contractor technical and logistics support services, and other related element of program, technical and logistics support. The estimated cost is \$680 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. Mexico has been a strong partner in combating organized crime and drug trafficking organizations. The sale of these UH-60M helicopters to Mexico will significantly increase and strengthen its capability to provide in-country airlift support for its forces engaged in counter-drug operations.

Mexico intends to use these defense articles and services to modernize its armed forces and expand its existing army architecture in its efforts to combat drug trafficking organizations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aircraft Company (GEAC) in Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale may require the assignment of an additional three U.S. Government and five contractor representatives in country full-time to support the delivery and training for approximately two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-02

Kingdom of Saudi Arabia - Support Services

WASHINGTON, Apr 21, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Saudi Arabia for support services and associated equipment, parts, training and logistical support for an estimated cost of \$80 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on April 17, 2014.

The Government of Saudi Arabia has requested a possible sale to provide three years of support services for the Facilities Security Forces- Training and Advisory Group (FSF-TAG) in Riyadh, Saudi Arabia in support of the Kingdom of Saudi Arabia Ministry of Interior (MOI). The support will include technical assistance and advisory support salaries, housing, office equipment, training, maintenance, vehicles, travel, furniture, and other related support. The estimated cost is \$80 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability in the Middle East.

This proposed sale will provide the continuation of FSF-TAG and its ability to provide services to Saudi Arabia's MOI in support of its critical infrastructure protection efforts. The proposed sale conveys the U.S.'s continued commitment to Saudi Arabia's security and strengthens our strategic partnership.

The proposed sale will not alter the basic military balance in the region.

There is no prime contractor associated with this proposed sale. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale requires the assignment of U.S. Government or contractor representatives to Saudi Arabia. At present, there are approximately 95 U.S. Government personnel and contractor representatives in country supporting FSF-TAG.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-09

Brazil – AGM-84L Harpoon Block II Missiles

WASHINGTON, May 6, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Brazil for AGM-84L Harpoon Block II Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$169 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 6, 2014.

The Government of Brazil has requested a possible sale of 16 AGM-84L Harpoon Block II Missiles, 4 CATM-84L Harpoon Block II Captive Air Training Missiles, containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$169 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for regional stability and economic progress in South America.

The Brazilian Air Force (BrAF) is in the process of modernizing and upgrading its Anti-Surface Warfare capability on its P-3 aircraft. The modernization will enhance the BrAF P-3's capabilities for its Counter-Transnational Organized Crime efforts, maritime border security, and protection of off-shore assets (fisheries, energy infrastructure, etc).

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri, and Delex Systems Incorporated in Vienna, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Brazil.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No: 14-13

WASHINGTON, May 12, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Belgium to upgrade its F-16A/B Block 15 Aircraft Mid Life Upgrade (MLU) aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$113 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 8, 2014.

The Government of Belgium has requested a possible sale to upgrade its F-16A/B Block 15 Mid Life Upgrade (MLU) aircraft with Operational Flight Program (OFF) tapes S1, M5 and M6. Upgrade includes: 69 LN-260 Embedded Global Positioning System-Inertial Navigation Systems (GPS-INS), 8 Remote Operated Video Enhanced Receivers IV (ROVER IV), 62 AN/APX-125 Transceivers (AN/APX-125 Air Identification Friend of Foe Radios), 32 KIV-78s, 1 Joint Mission Planning System (JMPS), 4 BRU-61/A Carriage Systems, and 43 AN/ARC-210(V) RT-1990(C) Ultra High Frequency/Very High Frequency (UHF/VHF) Receiver Transmitters. Also included are spare and repair parts, support equipment, repair and return services, software development/integration, test and equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical services, and other related elements of logistics and program support. The estimated cost is \$113 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally. The proposed sale of equipment and support for Belgium's F-16s will support its self-defense needs and enhance the interoperability of these aircraft with those of the United States and other NATO nations.

The proposed sale will support the Belgian Air Force's (BAF) efforts to equip, upgrade, and utilize its F-16A/B MLU aircraft. The BAF will have no difficulty integrating these upgraded platforms into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Missile and Fire Control in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Belgium.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 13-56

Republic of Turkey – MK 48 TORPEDOES

WASHINGTON, May 12, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Turkey for MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot torpedoes and associated equipment, parts, training and logistical support for an estimated cost of \$170 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 12, 2014.

The Government of Turkey has requested a possible sale of up to 48 MK 48 Mod 6 Advanced Technology All-Up-Round (AUR) Warshot Torpedoes, containers, fleet exercise sections, exercise fuel tanks, surface recovery cage and tools, exercise hardware, maintenance facility upgrades, support and test equipment, spare and repair parts, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The total estimated cost is \$170 million.

The Republic of Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale will improve Turkey's capability for self defense, modernization, regional security, and interoperability with U.S. and other NATO members. Turkey will use the enhanced capability of the MK 48 Mod 6 Advanced Technology torpedoes on the new CERBE Class submarines (214 Type 1200). Turkey has significant experience in maintaining and supporting advanced torpedoes, particularly MK 46 Mod 5A(S)W and MK 54 Lightweight Torpedoes (LWT), and has capable infrastructure that will require minimal updates. Turkey is capable of integrating, employing, and maintaining the MK 48 Mod 6AT Torpedo.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company Integrated Defense Systems in Keyport, Washington; and Lockheed Martin Sippican in Marion, Massachusetts. There are no known offset agreements associated in connection with this proposed sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contract representatives to Turkey; however, contractor engineering and technical services may be required on an interim basis for installations.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No: 14-12

WASHINGTON, May 13, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Australia for AIM 9X-2 Sidewinder missiles and associated equipment, parts, training and logistical support for an estimated cost of \$534 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 13, 2014.

The Government of Australia has requested a possible sale of up to 350 AIM-9X-2 Sidewinder Tactical Missiles, 35 AIM-9X Special Air Training Missiles (NATMs), 95 AIM-9X-2 Captive Air Training Missiles (CATMs), 22 AIM-9X-2 Tactical Guidance Units, 19 CATM-9X-2 Guidance Units, 3 DATM-9X, containers, test sets and support equipment, spare and repair parts, publications and technical documents, personnel training and training equipment, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The estimated cost is \$534 million.

Australia is an important ally in the Western Pacific that contributes significantly to ensuring peace and stability in the region. Australia's efforts in peacekeeping and humanitarian operations have made a significant impact on regional, political and economic stability and have served U.S. national security interests.

This proposed sale will improve the Royal Australian Air Force's (RAAF) air to air capability and ability to defend its nation and cooperate with allied air forces.. These missiles will be used on the RAAF's F/A-18 aircraft (and eventually F-35 aircraft) and will maintain the RAAF's air-to-air capability to defend its extensive coastlines against future threats. The proposed sale will enhance RAAF's ability to operate with coalition forces in bilateral and multilateral exercises and potential air defense operations. Australia will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale may require the assignment of additional U.S. Government or contractor representatives in Australia to provide technical and logistics support for two years. U.S. Government and contractor representatives will also participate in program management and technical reviews for one-week intervals twice annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

**Iraq - M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles
(HMMWVs)**

WASHINGTON, May 13, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) and associated equipment, parts, training and logistical support for an estimated cost of \$101 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 13, 2014.

The Government of Iraq has requested a possible sale of 200 M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) with M2 .50 cal. machine gun mounts, commercial radios, communication equipment, repair and spare parts, publications and technical documentation, tools and test equipment, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, and other related elements of logistics support. The estimated cost is \$101 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale of the M1151 HMMWV's would facilitate progress towards increasing the Iraq's ability to defend its oil infrastructure against terrorist attacks. Iraq will use the HMMWVs to increase the safety, effectiveness, and self-reliance of the Iraqi Army's Oil Pipeline Security Division. Iraq will have no difficulty absorbing these additional HMMWVs into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General in South Bend, Indiana. There are no known offset agreements proposed in connections with this potential sale.

Implementation of this proposed sale will not require U.S Government or contractor representatives to travel to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq - Aerostats and Rapid Aerostat Initial Deployment Tower Systems

WASHINGTON, May 13, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for Aerostats and Rapid Aerostat Initial Deployment tower systems and associated equipment, parts, training and logistical support for an estimated cost of \$90 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 13, 2014.

The Government of Iraq has requested a possible sale of 7 Aerostats (17 meter) and 14 Rapid Aerostat Initial Deployment (RAID) Tower Systems, installation, spare and repair parts, support equipment, publications and technical data, site surveys, U.S. government and contractor technical assistance, personnel training and training equipment, and other related elements of program and logistics support. The estimated cost is \$90 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

This proposed sale would facilitate progress towards increasing the Iraq's ability to provide protection of national level command and control sites, military installations, and other critical infrastructure against terrorist attacks. Iraq will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company of Arlington, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require up to 12 U.S. Government and contractor representatives to travel to Iraq over a two year period to provide technical support, program reviews and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq – AT-6C Texan II Aircraft

WASHINGTON, May 13, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for AT-6C Texan II aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$790 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 13, 2014.

The Government of Iraq has requested a possible sale of 24 AT-6C Texan II Aircraft, 2 spare PT-6A-68 Turboprop engines, 2 spare ALE-47 Counter-Measure Dispensing Systems and/or 2 spare AAR-47 Missile Launch Detection Systems, non-SAASM global positioning systems with CMA-4124, spare and repair parts, maintenance, support equipment, publications and technical documentation, tanker support, ferry services, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$790 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale of these aircraft, equipment, and support will enhance the ability of the Iraqi forces to sustain themselves in their efforts to bring stability to Iraq and to prevent overflow of unrest into neighboring countries.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

- Beechcraft Defense Company, Wichita, Kansas
- Lockheed Martin Mission Systems and Training, Oswego, New York
- CAE USA, Little Rock, Arkansas and Tampa, Florida
- Pratt & Whitney Corporation, Quebec, Canada and Bridgeport, West Virginia
- Martin Baker in Middlesex, United Kingdom
- Hartzell Propeller, Piqua, Ohio
- Canadian Marconi, Montreal, Canada
- L-3COM Wescam, Burlington, Canada
- L-3COM Systems West, Salt Lake City, Utah

There are no known offset agreements proposed in connection with this potential sale.

The proposed sale will involve multiple trips to Iraq involving many U.S. government and contractor representatives over a period of 15 years for program management, program and technical reviews, training, maintenance support, and site surveys.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Mexico - M1152 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs)

WASHINGTON, May 16, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Mexico for M1152 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) and associated equipment, parts, training and logistical support for an estimated cost of \$556 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on May 16, 2014.

The Government of Mexico has requested a possible sale of 3,335 M1152 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), spare and repair parts, support and test equipment, communication equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$556 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. Mexico has been a strong partner in combating organized crime and drug trafficking organizations. The sale of these HMMWVs to Mexico will significantly increase and strengthen its capability to provide in-country troop mobility to provide security.

Mexico intends to use these defense articles and services to modernize its armed forces and expand its existing army architecture to combat drug trafficking organizations. This will contribute to the Mexican military's goal of updating its capabilities, while further enhancing interoperability between Mexico and the U.S. and among other allies. Mexico will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General in South Bend, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require at least four U.S. Government or contractor representatives to travel to Mexico for a period of three years to provide operational and maintenance training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Brazil – M109A5+ Upgrade Kits

WASHINGTON, Jun 11, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Brazil for M109A5+ upgrade kits and associated equipment, parts, training and logistical support for an estimated cost of \$110 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Jun 11, 2014.

The Government of Brazil has requested a possible sale of 40 M109A5 kits to upgrade 40 M109A5 Self Propelled Howitzers to the M109A5+ configuration, spare and repair parts, support equipment, tools and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$110 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for regional stability and economic progress in South America.

Brazil will use this equipment to modernize its artillery capability and enhance the Brazilian Armed Forces' readiness. The reconfigured howitzers will provide the Brazilian Army with a much needed upgrade to this capability while further enhancing interoperability with U.S. and other military forces. Brazil will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be BAE Systems in York, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require two (2) U.S. Government or contractor representatives to travel to Brazil for a period of up to one (1) year to provide assistance during the upgrade of these 40 vehicles. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Brazil – M113A2MK1 Upgrade Kits.

WASHINGTON, Jun 11, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Brazil for M113A2MK1 upgrade kits and associated equipment, parts, training and logistical support for an estimated cost of \$131 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Jun 11, 2014.

The Government of Brazil has requested a possible sale of 434 M113A2MK1 Kits to upgrade M113 Armored Personnel Carriers (APCs) to the M113A2MK1 configuration, spare and repair parts, support equipment, tools and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$131 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for regional stability and economic progress in South America.

Brazil will use this upgrade equipment to modernize and improve its fleet of armored personnel carriers. The M113A2MK1 APCs will provide the Brazilian Army with a more reliable, agile, and effective infantry vehicle capability. Brazil will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be BAE Systems in York, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require two U.S. Government or contractor representatives to travel to Brazil for a period of up to seven years to provide technical assistance during the upgrade of the 434 vehicles.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 14-16

Singapore – F-16 Pilot Training

WASHINGTON, Jun 17, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Singapore for F-16 Pilot Training and associated equipment, parts, training and logistical support for an estimated cost of \$251 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Jun 16, 2014.

The Government of Singapore has requested a possible sale of follow-on support and services for Singapore's Continental United States (CONUS) detachment PEACE CARVIN II (F-16) based at Luke Air Force Base (AFB) for a five-year period. MDE consists of 80 CATM-9M Captive Air Training Missiles. Also included: jet fuel, containers, publications and technical documentation, tactics manuals and academic instruction, maintenance, clothing and individual equipment, execution and support of CONUS exercise deployments, airlift and aerial refueling, support equipment, spare and repair parts, repair and return, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$251 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for economic progress in Southeast Asia.

Singapore needs this training and equipment to support its F-16 aircraft. The continuation of this training program will enable Singapore to develop mission-ready and experienced F-16 pilots. The well-established pilot proficiency training program at Luke Air Force Base will support professional interaction and enhance operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-25

Mexico – UH-60M Black Hawk Helicopters

WASHINGTON, Jun 24, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Mexico for UH-60M Black Hawk Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$225 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Jun 24, 2014.

The Government of Mexico has requested a possible sale of 5 UH-60M Black Hawk Helicopters in standard USG configuration with designated unique equipment and Government Furnished Equipment (GFE), 13 T700-GE-701D Engines (10 installed and 3 spares), 12 Embedded Global Positioning Systems/Inertial Navigation Systems (10 installed and 2 spares), 10 M134 7.62mm Machine Guns, 5 Star Safire III Forward Looking Infrared Radar Systems, 1 Aviation Mission Planning System, and 1 Aviation Ground Power Unit. Also included are communication equipment including AN/ARC-210 RT-8100 series radios, Identification Friend or Foe (IFF) systems, aircraft warranty, air worthiness support, facility construction, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, site surveys, tool and test equipment, U.S. Government and contractor technical and logistics support services, and other related elements of program, technical and logistics support. The estimated cost is \$225 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. Mexico has been a strong partner in combating organized crime and drug trafficking organizations. The sale of these UH-60M helicopters to Mexico will significantly increase and strengthen its capability to provide in-country airlift support for its forces engaged in counter-drug operations.

Mexico intends to use these defense articles and services to modernize its armed forces and expand its existing naval/maritime support in its efforts to combat drug trafficking organizations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aircraft Company (GEAC) in Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale may require the assignment of an additional three U.S. Government and five contractor representatives in country full-time to support the delivery and training for approximately two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-19

Kuwait - Facilities and Infrastructure Construction Support Services

WASHINGTON, Jun 30, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Kuwait for facilities and infrastructure construction support services and associated equipment, parts, training and logistical support for an estimated cost of \$1.7 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Jun 30, 2014.

The Government of Kuwait has requested a possible sale for the design, construction, procurement of medical, non-medical, and information technology equipment, and operation and maintenance for the Kuwait Armed Forces Hospital. The U.S. Army Corps of Engineers (USACE) will provide project management, engineering, planning, design, acquisition, contract administration, construction management, and other technical services for construction of facilities and infrastructure for the hospital. The overall project will also include a new central utilities plant, site utilities, site improvements, covered parking, parking access and roads, and an enclosed pedestrian circulation connector for the new complex to the existing Armed Forces Hospital. The estimated cost is \$1.7 billion.

The proposed sale will contribute to the foreign policy and national security of the United States by supporting the infrastructure needs of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The facility scope of work is similar to other facilities built in the past by the U.S. Army Corps of Engineers in other Middle Eastern countries. This facility will provide healthcare services for members of the Kuwait uniformed services, their dependents and other eligible beneficiaries. Services will include ambulatory and inpatient services for tertiary level care, emergency medicine with Level I Trauma certification capability, and clinical support activities. The construction of this hospital will enable Kuwait to support the operational effectiveness of its military and to promote security and stability throughout Kuwait. Kuwait will have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this infrastructure and support will not alter the basic military balance in the region.

The USACE is the principal organization that will direct and manage this program. The USACE will provide services through both in-house personnel and contract services. There are no known offset agreements proposed in connection with this potential sale.

The estimated number of U.S. Government and contractor representatives to be assigned to Kuwait to implement the provisions of this proposed sale will be determined as a result of program definitization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-21

India – UGM-84L Harpoon Missiles

WASHINGTON, Jul 1, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to India for UGM-84L Harpoon missiles and associated equipment, parts, training and logistical support for an estimated cost of \$200 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 1, 2014.

The Government of India has requested a possible sale of 12 UGM-84L Harpoon Block II Encapsulated Missiles, 10 UTM-84L Harpoon Encapsulated Training missiles, 2 Encapsulated Harpoon certification training vehicles, containers, spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

This Harpoon missile system will be employed on the Indian Navy's Shishumar class submarine (Type-209) and will provide enhanced capabilities in defense of critical sea lines of communication. India has already purchased Harpoon missiles for integration on Indian Air Force Jaguar aircraft and Indian Navy P-8I maritime patrol aircraft. India will have no difficulty absorbing these additional missiles into its armed forces.

This proposed sale of Harpoon missiles will not alter the basic military balance in the region.

The principal contractors will be the Boeing Company in St Louis, Missouri; and Delex Systems Inc., in Vienna, Virginia. In accordance with the Indian Defense Procurement Policy, a contractor may be expected to conclude offset agreements with the Government of India but no offset agreement is currently known to have been proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to India. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis for program, technical, and management oversight and support requirements for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

United Kingdom – Tomahawk Block IV Torpedo Launched Land-Attack Missiles

WASHINGTON, Jul 1, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to the United Kingdom for Tomahawk Block IV Torpedo Launched Land-Attack missiles and associated equipment, parts, training and logistical support for an estimated cost of \$140 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 1, 2014.

The United Kingdom (UK) has requested a possible sale of up to 65 Block IV All-Up-Round Torpedo Tube Launched Tomahawk Land-Attack Missiles, containers, engineering support, test equipment, operational flight test support, communications equipment, technical assistance, personnel training/equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$140 million.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the military capabilities of the United Kingdom and enhancing weapon system standardization and interoperability. The UK is a major political and economic power and a key democratic partner of the U.S. in ensuring peace and stability around the world.

The UK needs these missiles to replenish those expended in support of coalition operations. The proposed sale will enhance the UK's ability to engage in coalition operations along with the U.S. Navy. The UK, which already has Tomahawk missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor personnel in the United Kingdom.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-08

Egypt – Personnel Support Services

WASHINGTON, Jul 3, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Egypt for personnel support services and associated equipment, parts, training and logistical support for an estimated cost of \$69 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 3, 2014.

The Government of Egypt requests a possible sale of personnel support services to support 140 U.S. Government and contractor representatives at nine locations. Services will include lodging, transportation, security, medical, and other related elements of program support. The estimated cost is \$69 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt has several Foreign Military Sales (FMS) cases that require in-country support from U.S. contractor, military and civilian personnel. Egypt has requested that the U.S. Air Force consolidate the relevant personnel support cases to maximize cost savings. This notification reports the cost for the past three years of this program and the proposed one-year extension.

The proposed sale of these services will not alter the basic military balance in the region.

This principal contractor will be DynCorps in McLean, Virginia. There are no known offset agreements proposed in connection with this proposed sale.

Implementation of this proposed sale will not require the assignment of additional U.S. government or contractor representatives to manage this program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-18

Singapore – Joint Direct Attack Munition (JDAM) Kits

WASHINGTON, Jul 7, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Singapore for Joint Direct Attack Munition (JDAM) kits and associated equipment, parts, training and logistical support for an estimated cost of \$63 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 3, 2014.

The Government of Singapore has requested a possible sale of 913 KMU-556B/B Joint Direct Attack Munition (JDAM) kits for Mk-84 2000 lb bombs, 100 FMU-152A/B fuzes, and 300 DSU-40 Precision Laser Guidance Sets. Also included are containers, munition trailers, support equipment, spare and repair parts, test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical support, and other related elements of logistics support. The estimated cost is \$63 million.

This proposed sale will contribute to the foreign policy objectives and strategic national security objectives of the United States by supporting Singapore as a key regional partner in counter-terrorism and an important force for political stability and economic progress in South East Asia.

Singapore is requesting these guidance sets, services and equipment to sustain its air-to-ground weapons stockpiles and to accommodate training expenditures. This sale will enable the Republic of Singapore Air Force to sustain mission-ready status to ensure it can contribute to coalition operations and meet its national defense requirements. Singapore maintains a large CONUS F-15SG training presence at Mountain Home AFB. A portion of these munitions are anticipated for use at this CONUS training facility, and will enable RSAF pilots to practice using GPS-guided munitions that will further refine their combat capability. Singapore should have no difficulty absorbing these additional munitions into its armed forces.

The proposed sale of these munitions and support will not alter the basic military balance in the region.

The principal contractor will be the Boeing Defense, Space and Security in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

United Kingdom – Globemaster III Sustainment Partnership

WASHINGTON, Jul 3, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to the United Kingdom for continued participation in the USAF/Boeing Globemaster III Sustainment Partnership and associated equipment, parts, training and logistical support for an estimated cost of \$250 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 3, 2014.

The Government of the United Kingdom (UK) has requested continued participation in the USAF/Boeing Globemaster III Sustainment Partnership which consists of support for the United Kingdom's fleet of eight Boeing C-17A Globemaster III cargo aircraft, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$250 million.

The UK is a major political and economic power in NATO and a key democratic partner of the U.S. in ensuring peace and stability in this region and around the world.

The continuation of this program will ensure the UK can effectively maintain its current force projection capability that enhances interoperability with U.S. forces. The support will provide UK with rapid global strategic mobility to deploy to austere locations. The UK is a staunch supporter of the U.S. in Iraq and Afghanistan and in overseas contingency operations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the United Kingdom.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-31

Israel – AIM-9X Sidewinder Missiles

WASHINGTON, Jul 14, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Israel for AIM-9X Sidewinder missiles and associated equipment, parts, training and logistical support for an estimated cost of \$544 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 14, 2014.

The Government of Israel has requested a possible sale of up to 600 AIM-9X-2 Sidewinder Block II All-Up-Round Missiles, 50 CATM-9X-2 Captive Air Training Missiles, 4 Dummy Air Training Missiles, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical support services, and other related logistics and program support. The estimated cost is \$544 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel in developing and maintaining a strong and ready self-defense capability. This proposed sale is consistent with those objectives and will enable the IDF to achieve those goals.

The Israeli Air Force is modernizing its fighter aircraft to better support its own air defense needs. The proposed sale of AIM-9X-2 missiles will improve the capability of the Israeli Air Force, enhance Israeli interoperability with the U.S., and help maintain regional peace and security. Israel will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Israel on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

PDF Version:  [philippines_14-24.pdf](#)

Media/Public Contact: Lorna Jons (703) 604-6618

Transmittal No: 14-24

WASHINGTON, Jul 24, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to the Philippines for C-130T aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$61 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 23, 2014.

The Government of the Philippines has requested a possible sale from Department of Defense stock of two (2) C-130T Aircraft, and 10 T56-16 engines (8 installed and 2 spares). Also included are logistical sustainment and support for a period of three years, modification equipment and labor costs, spare and repair parts, support equipment, publications and technical documentation, aircraft ferry support, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, and other related elements of logistics and program support. The estimated cost is \$61 million.

This proposed sale would contribute to U.S. security and foreign policy goals by building the Philippines' maritime domain security capacity and deepening our overall strategic partnership with the Philippines.

The Government of the Philippines desires these additional C-130s to bolster its lift capabilities, which are essential for providing humanitarian assistance and disaster relief. The Philippines will use this increased lift capability to improve the mobility and resupply of its forces and for the provision of humanitarian assistance in the Philippines and the wider region, thereby reducing the potential level of U.S. assistance requested/needed for these purposes. The Philippine Air Force (PAF) already has C-130 aircraft in its inventory and will have no difficulty absorbing these additional aircraft.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

Contractor requirements are still being researched, and will be fulfilled through open competition. Should USG representatives or contractor support in-country be required in support of the case, length of time in-country will be minimized to the maximum practical extent. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Jul 24, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Tunisia for UH-60M Black Hawk helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$700 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 23, 2014.

The Government of Tunisia has requested a possible sale of 12 UH-60M Black Hawk Helicopters in standard USG configuration with designated unique equipment and Government Furnished Equipment (GFE), 30 T700-GE-701D Engines (24 installed and 6 spares), 26 Embedded Global Positioning Systems/Inertial Navigation Systems, 24 M134 7.62mm Machine Guns, integration of Precision Guided Rocket System capability to permit launch of laser-guided variants of 2.75 rockets, 9,100 2.75 Hydra Rockets, 100 AGM-114R Hellfire Missiles, 20 M299 Hellfire Missile Pods, 24 M261 Hydra-70 Rocket Pods, 24 GAU-19 .50 cal Machine Guns, 15 Wescam MX-15Di or Brite Star II Electro-Optical Infrared Laser Designators, 6 Aviation Mission Planning Systems, 1 Aviation Ground Power Unit, 30 AN/AVS-9 Night Vision Goggles, 15 AAR-57 Common Missile Warning Systems, 15 AN/APR-39A(V)4s Radar Warning Receivers, 15 AN/AVR-2B(V)1s Laser Warning Systems, 30 MXF-4027 Very High Frequency/Ultra High Frequency radios, 15 AN/APX-117 IFF Transponders, 15 Very High Frequency/Digitally Selective Calling radios, 15 ARN-147 VOR/ILS, 15 AN/ARN-153 Tactical Air Navigation Systems, and 15 AN/ARC-220 radios. Also included are aircraft warranty, ammunition, air worthiness support, facility construction, spare and repair parts, support equipment, communication equipment, publications and technical documentation, personnel training and training equipment, site surveys, tool and test equipment, U.S. Government and contractor technical and logistics support services, and other related element of program and logistics support. The estimated cost is \$700 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country in North Africa.

The proposed sale will improve Tunisia's capability to deter regional threats and strengthen its homeland defense, as well as support counter-terrorism operations. The sale of these UH-60 helicopters will bolster Tunisia's ability to provide border patrol, rapid reaction, and field expedient medical evacuation for its air and ground forces in counter-terrorism and border security operations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft Company in Stratford, Connecticut; and General Electric Aircraft Company in Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale may require the assignment of an additional three U.S. Government and five contractor representatives in Tunisia to support the delivery and training for approximately two-five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No: 14-05

WASHINGTON, Jul 29, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for aviation sustainment support, on-the-job maintenance training and maintenance advice and associated equipment, parts, training and logistical support for an estimated cost of \$500 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 28, 2014.

The Government of Iraq has requested a possible sale to establish five years of contractor logistics support for its Bell 407, OH-58, and Huey II aircraft in support of the Iraq Aviation Command. This support will include maintenance support, personnel training and training equipment, publications and technical documentation, site surveys, life support costs, Quality Assurance Teams, U.S. Government and contractor technical, logistics, and engineering support services, and other related elements of logistics support. The estimated cost is \$500 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The Government of Iraq needs this logistics support, contractor maintenance, training, and technical services to maintain the operational capabilities of its aircraft.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Bell Helicopter Textron Inc. of Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately five U.S. Government (USG) and 25 contractor representatives to travel to or reside in Iraq for a period of five years to establish maintenance support, on-the-job maintenance training and maintenance advice.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Jul 29, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for AGM-114K/N/R Hellfire missiles and associated equipment, parts, training and logistical support for an estimated cost of \$700 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on July 28, 2014.

The Government of Iraq has requested a possible sale of 5000 AGM-114K/N/R Hellfire missiles, Hellfire missile conversion, blast fragmentation sleeves and installation kits, containers, transportation, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$700 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

Iraq will use the Hellfire missiles to help improve the Iraq Security Forces' capability to support current on-going ground operations. Iraq will also use this capability in future contingency operations. Iraq, which already has Hellfire missiles, will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of these additional missiles will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation in Bethesda, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Iraq. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Media/Public Contact: pm-cpa@state.gov

Transmittal No: 13-50

WASHINGTON, Aug 12, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Turkey for AIM-120C-7 AMRAAM missiles and associated equipment, parts, training and logistical support for an estimated cost of \$320 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on August 11, 2014.

The Government of Turkey has requested a possible sale of 145 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 10 missile guidance sections, and 40 LAU-129 launchers, containers, support equipment, spare and repair parts, integration activities, publications and technical documentation, test equipment, personnel training and training equipment, U.S. Government and contractor logistics, engineering and technical support, and other related elements or logistics and program support. The estimated cost is \$320 million.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our NATO ally in developing and maintaining a strong and ready self-defense. This proposed sale is consistent with those objectives.

The Turkish Air Force (TAF) intends to obtain these missiles to modernize its inventory, which will support its own air defense needs and improve its interoperability with the U.S. and other NATO allies. These missiles will be used on the TAF's F-16 aircraft (and eventually their F-35 aircraft) and will maintain the TAF's air-to-air capability to defend its extensive coastline and borders against future threats. Turkey will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Turkey involving U.S. Government and contractor representatives for technical reviews/support, program management, and training. U.S. contractor representatives will be required in Turkey for integration, testing, and training. The number and duration are unknown and will be determined during contract negotiations.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Aug 12, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Canada for AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) systems and associated equipment, parts, training and logistical support for an estimated cost of \$225 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on August 12, 2014.

The Government of Canada has requested the sale of 6 AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) Systems for the CP-140 Long Range Patrol Aircraft. The sale consists of 22 T-2465 AN/AAQ-24(V) Guardian Laser Transmitter Assemblies (GLTA), 52 R-2675 AN/AAQ-24(V) Next Generation Missile Approach Warning Sensors (MAWS), and 16 CP-2793 AN/AAQ-24(V) LAIRCM System Processors, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$225 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a NATO ally that has been, and continues to be, an important force for political stability and economic progress in North America.

Canada will use this capability to enhance the survivability of its CP-140 Long Range Patrol aircraft and crew. The LAIRCM system will provide Canada's CP-140 fleet with defensive countermeasures against enemy attacks. Canada, which already has AN/AAQ-24(V) systems as part of its C-17 fleet, will have no difficulty absorbing these additional systems.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No: 14-11

WASHINGTON, Aug 12, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Saudi Arabia for an AWACS modernization program and associated equipment, parts, training and logistical support for an estimated cost of \$2.0 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on August 12, 2014.

The Kingdom of Saudi Arabia (KSA) has requested a sale of 5 Airborne Warning and Control System (AWACS) Block 40/45 Mission Computing Upgrade systems, 20 Next Generation Identification Friend or Foe (NG IFF) AN/UPX-40, communication equipment, provisioning, spare and repair parts, support equipment, Mission Planning System, repair and return, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, and other related elements of logistics and program support. The Block 40/45 major defense equipment includes new mission computing hardware and software with open architecture – including computers, servers, and mission interactive displays. The NG IFF major defense equipment includes receivers, interrogators and processor hardware for earlier detection of friendly contacts. The total estimated cost is \$2.0 billion.

The proposed sale will contribute to the foreign policy and the national security objectives of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability in the Middle East.

These upgrades are a continuation of efforts to maintain interoperability with U.S. and coalition forces. The Royal Saudi Air Force's (RSAF) AWACS fleet provides early warning of potential airborne threats to Saudi Arabia and manages friendly airborne assets. The sale of this equipment and support will enhance the RSAF's ability to effectively field, support, and employ this aircraft for the foreseeable future. The KSA has the ability to absorb and use the defense articles and services associated with the AWACS modernization effort.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to the KSA.

The principal contractor will be The Boeing Company in Kent, Washington. There are no known offset agreements in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Sep 9, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Brazil for UH-60M Black Hawk helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$145 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on September 8, 2014.

The Government of Brazil has requested a possible sale of 3 UH-60M Black Hawk helicopters with 8 T-700-GE-701C engines (6 installed and 2 spares), 12 M-134 7.62mm Machine Guns, 8 H765GU Embedded Global Positioning System/Inertial Navigation Systems, spare and repair parts, tools and support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$145 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for political stability and economic progress in South America.

Brazil needs these aircraft to fulfill its strategic commitments for additional search and rescue and internal security capabilities. This procurement will upgrade its air mobility capability and provide for the defense of vital installations and close air support for ground forces. Brazil will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft (United Technologies) Corporation in Stratford, Connecticut; General Electric Engines in Lynn, Massachusetts; and Dillon Aero Systems in Mesa, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of one contractor representatives to Brazil for a period of up to three years to support the fielding, maintenance, and personnel training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Sep 19, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Lebanon for Huey II rotary wing aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$180 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on September 17, 2014.

The Government of Lebanon has requested a possible sale of 18 Huey II rotary wing aircraft, spare and repair parts, maintenance, support equipment, publications and technical documentation, personnel training and training equipment, repair and return, aircraft preparation for shipment, ferry and refueling support, component improvement program, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$180 million.

This proposed sale serves U.S. national, economic, and security interests by providing Lebanon with mobility capabilities needed to maintain internal security, enforce United Nation's Security Council Resolutions 1559 and 1701, and counter terrorist threats.

The proposed sale of these aircraft will enable Lebanon to meet present and future challenges posed by internal and border security threats, evacuations, search and rescue, and drug interdiction operations. The Huey II will augment Lebanon's recently-purchased Huey II aircraft, help replace its aging fleet of UH-1H aircraft and provide the Lebanese Armed Forces with mission-capable assets. Lebanon will have no difficulty absorbing these additional aircraft into its armed forces.

The proposed sale of these vehicles and support will not alter the basic military balance in the region.

The prime contractor will be Bell Helicopter in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Lebanon involving U.S. Government and contractor representatives over a period of up to three years to provide program support and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No: 14-32

WASHINGTON, Sep 19, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Pakistan for 160 Mine Resistant Ambush Protected (MRAP) vehicles, spare and repair parts, and training, etc., for an estimated cost of \$198 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Pakistan has requested a possible sale of 160 Navistar Mine Resistant Ambush Protected (MRAP) vehicles to include (110 MaxxPro Dash DXM, 30 MaxxPro Base DXM, 10 MaxxPro Dash DXM Ambulances, and 10 MaxxPro Recovery Vehicles with protection kits), spare and repair parts, support and test equipment, publications and technical documentation, personnel training and equipment training, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$198 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a country vital to U.S. foreign policy and national security goals in South Asia.

The proposed sale of MRAPs will ensure that Pakistan can effectively operate in hazardous areas in a safe, enhanced survivability vehicle, and improves Pakistan's interoperability with U.S. forces. By acquiring this capability, Pakistan will be able to provide the same level of protection for its own forces as the United States provides for its forces. Pakistan, which currently possesses MRAPs, has successfully demonstrated the ability to operate and maintain the vehicles in counterinsurgency and counterterrorism operations, and will have no difficulty absorbing these additional vehicles into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractor will be Navistar Defense Corporation in Madison Heights, Michigan. There are no known offset agreements proposed in connection with this potential sale.

Implementation of the proposed sale will require approximately two (2) U.S. Government and twenty-four (24) contractor representatives in Pakistan for a period of approximately 18 months to perform inspections and deprocessing of vehicles upon delivery; provide assistance in installation of vehicle accessory kits; provide fault diagnosis and repairs; perform corrective maintenance, to include accident and battle damage assessment and repairs; conduct operator and maintainer training; and conduct inventories and maintain accountability of USG provided material.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

WASHINGTON, Sep 19, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Poland for Joint Air-to-Surface Standoff Missiles and F-16 Operational Flight Plan upgrades, associated equipment, parts, training and logistical support for an estimated cost of \$500 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on September 17, 2014.

The Government of Poland has requested a possible sale of 40 AGM-158A Joint Air-to-Surface Standoff Missiles (JASSM), 2 AGM-158A JASSM Live with Test Instrumentation Kit (TIK) and Flight Termination Systems (FTS), 2 AGM-158A JASSM Inert with TIK and FTS, and 2 Flight Certification Test Vehicles. Also included: Operational Flight Plan upgrade to M6.5 tape for the Polish F-16C/D Block 52 aircraft to include JASSM integration, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistical and program support. The estimated cost is \$500 million.

The proposed sale will contribute to the foreign policy and the national security objectives of the United States by helping to improve the security of a NATO ally. Poland continues to be an important force for political stability and economic progress in Central Europe.

The proposed sale will improve Poland's capability to meet current and future threats of enemy air and ground weapons systems. Poland will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. These weapon and capability upgrades will allow Poland to strengthen its air-to-ground strike capabilities and increase its contribution to future NATO operations.

The proposed sale of the weapons, equipment, and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin in Ft. Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Canada – MK-48 Mod 7 Advanced Technology (AT) Torpedo Kits

WASHINGTON, Sep 24, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Canada for MK-48 Mod 7 Advanced Technology (AT) Torpedo Kits aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$41 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Canada has requested a possible sale of 12 MK-48 Mod 7 Advanced Technology Torpedo Conversion Kits with containers, spare and repair parts, weapon system support and integration, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical, and logistics support services, and other related elements of logistics support. These kits will upgrade 12 of Canada's existing inventory of MK-48 torpedoes from Mod 4 to Mod 7. The estimated cost is \$41 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally that has been, and continues to be, a key democratic partner of the United States in ensuring peace and stability.

The sale of this equipment and support will not alter the basic military balance in the region.

Canada intends to use the MK 48 Mod 7AT Torpedoes on its Royal Canadian Navy's Victoria (formerly Upholder) Class submarines. Canada has significant relevant infrastructure and experience with modern torpedoes, including MK-48 Mod 4/4M and MK-46 Mod 5A (SW) torpedoes. Canada will have no difficulty absorbing these additional conversion kits.

The principal contractor will be Lockheed Martin Sippican, Inc. in Marion, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-26

UAE – Mine Resistant Ambush Protected (MRAP) Vehicles

WASHINGTON, Sep 26, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to the United Arab Emirates for Mine Resistant Ambush Protected (MRAP) Vehicles and associated equipment, parts, training and logistical support for an estimated cost of \$2.5 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of the United Arab Emirates (UAE) has requested a possible sale for the refurbishment and modification of 4,569 Mine Resistant Ambush Protected (MRAP) Vehicles (that include 29 MaxxPro Long Wheel Base (LWB), 1,085 MaxxPro LWB chassis, 264 MaxxPro Base/MRAP Expedient Armor Program (MEAP) capsules without armor, 729 MaxxPro Bases, 283 MaxxPro MEAP without armor, 970 MaxxPro Plus, 15 MRAP Recovery Vehicles, 1,150 Caiman Multi-Terrain Vehicles without armor, and 44 MRAP All-Terrain Vehicles) being sold separately from U.S. Army stock pursuant to section 21 of the Arms Export Control Act, as amended, as Excess Defense Articles (EDA). Also included are Underbody Improvement Kits, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, Field Service Representatives' support, U.S. Government and contractor logistics and technical support services, and other related elements of logistics and program support. Notification for the sale from stock of the MRAP vehicles referenced above has been provided separately, pursuant to the requirements of section 7016 of the Consolidated Appropriations Act, 2014 and section 516 of the Foreign Assistance Act of 1961, as amended. The estimated cost is \$2.5 billion

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The UAE intends to utilize the EDA MRAP vehicles to increase force protection, to conduct humanitarian assistance operations, and to protect vital international commercial trade routes and critical infrastructure. Additionally, these MRAPs will enhance UAE's burden sharing capacity and defensive capabilities.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Navistar Defense in Lisle, Illinois; BAE Systems in Sealy, Texas; and Oshkosh Defense in Oshkosh, Wisconsin. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to the UAE involving many U.S. Government and contractor representatives for approximately three or more years to provide program support and training.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Thailand – UH-72A Lakota Helicopters

WASHINGTON, Sep 29, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Thailand for UH-72A Lakota Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$89 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on September 26, 2014.

The Government of Thailand has requested a possible sale of 9 UH-72A Lakota Helicopters, warranty, spare and repair parts, support equipment, communication equipment, publications and technical documentation, Aviation Mission Planning Station, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$89 million.

This proposed sale will contribute to the foreign policy and national security of the United States, by helping to improve the security of a major non-NATO ally.

This proposed sale will contribute to Thailand's goal of upgrading and modernizing its military forces with a new light utility helicopter capable of meeting requirements for rotary-wing transportation, while further enhancing interoperability between Thailand the U.S., and among other allies. Thailand will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be EADS North America in Herndon, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require ten contractor representatives to travel to Thailand for a period of five weeks for equipment deprocessing/fielding and system checkout.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

UAE – High Mobility Artillery Rocket Systems (HIMARS) Launchers

WASHINGTON, Sep 29, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to the United Arab Emirates for High Mobility Artillery Rocket Systems (HIMARS) Launchers and associated equipment, parts, training and logistical support for an estimated cost of \$900 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of the United Arab Emirates (UAE) has requested a possible sale of

- 12 High Mobility Artillery Rocket Systems (HIMARS) Launchers
- 100 M57 Army Tactical Missile System (ATACMS) T2K (Block IA Unitary) Rockets
- 65 M31A1 Guided Multiple Launch Rocket (GMLRS) Unitary Pods

Also included are 12 High Mobility Artillery Rocket System Resupply Vehicles M1084A1P2; 2 Wreckers, 5 Ton, M1089A1P2, with Long Term Armor Strategy (LTAS) Cab and B-Kit Armor; 90 Low Cost Reduced-Range Practice Rocket (RRPR) pods; support equipment; communications equipment; spare and repair parts; test sets; batteries; laptop computers; publications and technical data; personnel training and equipment; systems integration support; a Quality Assurance Team and a Technical Assistance Fielding Team support; United States Government and contractor engineering and logistics personnel services; and other related elements of logistics support. The estimated cost is \$900 million.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The HIMARS will improve the UAE's capability to meet current and future threats and provide greater security for its critical infrastructure. This proposed sale will also enhance the UAE's interoperability with the U.S. and its allies, making it a more valuable partner in an increasingly important area of the world. The UAE will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Missile and Fire Control in Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of up to ten U.S. government or contractor representatives to travel to the UAE for a period of up to one year for equipment de-processing/fielding, system checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-43

Kingdom of Saudi Arabia (KSA) – Patriot Air Defense System with PAC-3 Enhancement

WASHINGTON, Oct 1, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to the Kingdom of Saudi Arabia for a Patriot Air Defense System with PAC-3 enhancement and associated equipment, parts, training and logistical support for an estimated cost of \$1.750 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on September 30, 2014.

The Kingdom of Saudi Arabia has requested a possible sale of 202 Patriot Advanced Capability (PAC) -3 Missiles with containers, and 1 Guidance Enhanced Missile (GEM) Flight Test Target/Patriot as a Target. Also included are 2 PAC-3 Telemetry Kits, 6 Fire Solution Computers, 36 Launcher Station Modification Kits, 2 Missile Round Trainers, 2 PAC-3 Slings, 6 Patriot Automated Logistics Systems Kits, 6 Shorting Plugs, spare and repair parts, lot validation and range support, ground support equipment, repair and return, publications and technical documentation, personnel training and training equipment, Quality Assurance Team, U.S. Government and contractor technical and logistics support services, and other related elements of logistics and program support. The estimated cost is \$1.750 billion.

The program will contribute to the foreign policy and national security of the United States by helping to improve the security of a partner which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will help replenish Saudi's current Patriot missiles which are becoming obsolete and difficult to sustain due to age and the limited availability of repair parts. The purchase of PAC-3 missiles will support current and future defense missions and promote stability within the region. Saudi Arabia, which already has Patriot missiles in its inventory, will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin Missiles and Fire Control in Dallas, Texas; and Raytheon Corporation in Tewksbury, Massachusetts. Although offsets are requested, they are unknown at this time and will be determined during negotiations between the KSA and contractor.

Implementation of this proposed program will require one U.S. contractor to travel to the Kingdom of Saudi Arabia for a period of three years for equipment fielding and system checkout.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-37

Brunei – C-130J Aircraft

WASHINGTON, Oct 7, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Brunei for C-130J aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$343 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on October 6, 2014.

The Government of Brunei has requested a sale of 1 C-130J aircraft, 6 AE2100D3 turboprop engines (4 installed and 2 spares), Government Furnished Equipment, communication equipment, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$343 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-Brunei relationship, which has been a force for regional stability and economic progress in Southeast Asia.

This proposed sale of a C-130J to Brunei will provide a critical capability to assist in Humanitarian Assistance and Disaster Relief missions. The aircraft will enable Brunei to provide aid and assistance in greater capacities to regional allies and partners in need. The aircraft will also provide the ability to execute maritime patrol missions and contribute to search and rescue missions in the region. Brunei should have no difficulty absorbing this aircraft into its inventory.

The proposed sale of this aircraft and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin-Aerospace in Marietta, Georgia. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Brunei.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Estonia – Javelin Missiles

WASHINGTON, Oct 7, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Estonia for Javelin missiles and associated equipment, parts, training and logistical support for an estimated cost of \$55 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on October 6, 2014.

The Government of Estonia has requested a possible sale of 350 Javelin Guided Missiles, 120 Command Launch Units (CLU) with Integrated Day/Thermal Sight, 102 Battery Coolant Units, 16 Enhanced Performance Basic Skills Trainers (EPBST), 102 Missile Simulation Rounds (MSR), spare and repair parts, rechargeable and non-rechargeable batteries, battery chargers and dischargers, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor representative engineering, technical and logistics support services, and other related logistics support. The estimated cost is \$55 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

The proposed sale will improve Estonia's capability to meet current and future threats and provide greater security for its critical infrastructure. Estonia will use the enhanced capability to strengthen its homeland defense. Estonia will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon/Lockheed Martin Javelin Joint Venture in Orlando, Florida and Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Estonia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Greece – P-3B Aircraft Overhaul and Upgrade

WASHINGTON, Oct 7, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Greece for P-3B aircraft overhaul and upgrade as well as associated equipment, parts, training and logistical support for an estimated cost of \$500 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on October 6, 2014.

The Government of Greece has requested a possible sale for modification and reactivation of two (2) P-3B aircraft, and the upgrade of up to five (5) P-3B aircraft that will include structural Mid Life Upgrades (MLU), Phased Depot Maintenance (PDM), Mission Integration and Management Systems (MIMS), and new flight avionics. The MLU kits will provide service life extensions for 15,000 flight hours, spare and repair parts, repair and return, support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics and program support. The estimated cost is \$500 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

The proposed sale for overhaul and upgrade would allow the Hellenic Navy (HN) to resume operations of its P-3B aircraft for land-based maritime patrol and reconnaissance, surveillance and protection of areas of national interest. The HN will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company in Marietta, Georgia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Greece by U.S. Government and contractor representatives for a period of seven years for delivery, system checkout, training, and program reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-48

Brazil – S-70B Helicopter Follow-On Support

WASHINGTON, Oct 7, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Brazil for S-70B helicopter follow-on support and associated equipment, parts, training and logistical support for an estimated cost of \$150 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Brazil has requested a possible sale for three years of follow-on support for S-70B helicopters, which includes 1 Tactical Operational Flight Trainer, 5 AN/AVS-9 Night Vision Goggles, spare and repair parts, support equipment, tools and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$150 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for regional stability and economic progress in South America.

The Government of Brazil will use the follow-on support to improve the level of training for its pilots and enhance the performance of its S-70 fleet. This support will increase Brazil's operational readiness.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no principal contractors associated with this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Brazil. However, travel will be required on a temporary basis for program, technical, and management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-50

Australia – Close-In Weapon System Block 1B Baseline 2 Upgrade

WASHINGTON, Oct 14, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Australia for Close-In Weapon System Block 1B Baseline 2 upgrades and associated equipment, parts, training and logistical support for an estimated cost of \$76 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on October 10, 2014.

The Government of Australia has requested a possible sale of up to 3 Close-In Weapon System (CIWS) Block 1B Baseline 1 to Baseline 2 upgrade kits; the overhaul and upgrade of up to 9 CIWS Block 1A mounts to Block 1B Baseline 2 systems; 11 Remote Control Stations; 11 Local Control Stations, spare and repair parts; support equipment; test equipment; personnel training and training equipment; publications and technical documentation; U.S. Government and contractor logistics and technical support services; and other related elements of logistics and program support. The estimated cost is \$76 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major ally which has been, and continues to be a staunch coalition partner and important force for political stability throughout the world.

The proposed sale will improve Australia's maritime defense capability to contribute to national defense and future coalition operations. Australia will use the enhanced capability as a deterrent to regional threats and to strengthen its shipboard defense. Australia will have no difficulty absorbing this new upgrade into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq – M1A1 Abrams Tank Ammunition

WASHINGTON, Oct 20, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Iraq for M1A1 Abrams tank ammunition and associated equipment, parts and logistical support for an estimated cost of \$600 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a possible sale of 10,000 M831 120mm High-explosive anti-tank (HEAT) munitions, 10,000 M865 120mm Kinetic Energy Warheads (KEW), 10,000 M865 120mm KEW-A1, and 16,000 M830 120mm HEAT-MP-T tank ammunition. Also included are U.S. Government and contractor technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$600 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

The proposed sale of the ammunition and support will advance Iraq's efforts to develop an integrated ground defense capability to support a strong national defense. This will enable the Iraqi Government to sustain its efforts to establish and maintain stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Dynamics-Ordnance Tactical Systems in St Petersburg, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government and contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-41

Pakistan – GRC43M Cutters

WASHINGTON, Oct 30, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Pakistan for GRC43M Cutters and associated equipment, parts, training and logistical support for an estimated cost of \$350 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Pakistan has requested the purchase of 8 43-meter Global Response Cutters (GRC43M). Each Cutter will be a mono-hull design made of Glass Reinforced Plastic (GRP). Also included in this sale: outfitted 8 25mm or 30mm Naval Gun Systems, 32 M2-HB .50 caliber machine guns, 32 7.62mm guns, 8 8-meter Rigid Inflatable Boats, ballistic/armor protection of critical spaces, command and control equipment, communication equipment, navigation equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics and program support. The total estimated cost is \$350 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a country vital to U.S. foreign policy and national security goals in South Asia.

This sale will enhance Pakistan's ability to enforce the rule of law over its coastal areas to safeguard seaborne energy corridors, deter the outbreak of piracy along the north Arabian Sea, and curtail the trafficking of narcotics and other illicit goods. These vessels provide the Pakistan Navy with the capability for medium to long endurance coverage of its 660 miles of coastline. Pakistan will have no difficulty absorbing GRC43M Cutters into its armed forces.

This sale will not alter the basic military balance in the region.

The principal contractor will be WSY, Inc. in Port Angeles, Washington. There are no known offset agreements proposed in conjunction with this potential sale.

Implementation of this proposed sale will require multiple trips by U.S. Government and contractor representatives to participate in program and technical reviews plus training and maintenance support in country, on a short-term temporary basis, for a period of no more than 60 months or until the last Cutter is delivered to Pakistan and integrated into their operating forces.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-52

Republic of Korea – Patriot Advanced Capability (PAC-3) Missiles

WASHINGTON, Nov 5, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to the Republic of Korea for Patriot Advanced Capability (PAC-3) missiles and associated equipment, parts and logistical support for an estimated cost of \$1.405 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Republic of Korea (ROK) has requested a possible sale of 136 Patriot Advanced Capability (PAC-3) Missiles with containers and 2 Flight Test Targets (Patriot-As-A-Target (PAAT) modified short-range tactical ballistic missiles). Also included are 2 PAC-3 Telemetry Kits, 10 Fire Solution Computers, 18 Launcher Stations Modification Kits, 8 Missile Round Trainers, 8 PAC-3 Slings, 10 Patriot Automated Logistics System Kits, 13 Installation Kits for TPX-58 Identification Friend or Foe with KIV-77, PAC-3 Ground Support Equipment (GSE), 10 Shorting Plugs, 77 Defense Advanced Global Positioning Receivers (DAGRs) and Installation Kits, Patriot Fiber Optic Modem, 8 Guided Missile Transporters, 4 AN/VRC-90E Radios with Installation Kits, spare and repair parts, support equipment, communication equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, Quality Assurance Teams' support, and other related elements of logistics and program support. The estimated cost is \$1.405 billion.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by meeting the legitimate security and defense needs of an ally and partner nation. The ROK is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to U.S. national interests to assist our Korean ally in developing and maintaining a strong and ready self-defense capability.

The ROK requires the PAC-3 missiles to effectively conduct and sustain BMD operations, as well as serve as a core component to the ROK's future Korea Air Missile Defense (KAMD). This sale will increase interoperability between the ROK's ground and sea-based (Aegis) BMD forces and U.S. Forces Korea (USFK), which not only affects ROK national security but also the security of the U.S. personnel assigned in the ROK. This sale will provide the ROK with the capability to defeat lower tier Ballistic Missile Defense (BMD) threats, and will decrease the ROK's reliance on the deployment of U.S. combat forces to maintain stability in the region.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon Corporation in Andover, Massachusetts; and Lockheed Martin Missiles and Fire Control in Dallas, Texas. There are no known offset requirements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to Korea. However, U.S. Government or contractor personnel will be required, on a temporary basis, to conduct in-country visits in conjunction with program technical and management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Australia – C-17 Globemaster III Aircraft

WASHINGTON, Nov 12, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Australia for C-17 Globemaster III aircraft and associated equipment, parts and logistical support for an estimated cost of \$1.609 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Australia has requested a possible sale of up to 4 C-17A Globemaster III aircraft, 19 F117-PW-100 Pratt & Whitney engines, 4 AN/AAQ-24V Large Aircraft Infrared Countermeasures (LAIRCM) Systems, 4 Small Laser Transmitter Assemblies, 4 System Processors, 4 AN/AAR-54 Missile Warning Sensors, 1 AN/ALE-47 Countermeasure Dispenser, 1 AN/AAR-47 Missile Warning System, 5 Trimble Force 524 Receivers, 2 GAS-1 Antenna Units, 2 Controlled Reception Pattern Antennas, 1 AN-USC-43V Advanced Narrowband Voice Terminal, 16 Honeywell H-764 ACE Embedded Global Positioning System/Inertial Navigation Systems, spare and repair parts, supply and test equipment, personnel training and training equipment, publications and technical documentation, United States Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost for up to four C-17As, support and services is \$1.609 billion.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major contributor to political stability, security, and economic development in Southeast Asia. Australia is an important ally and partner that contributes significantly to peacekeeping and humanitarian operations around the world. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability. This proposed sale is consistent with those objectives and facilitates burden sharing with a key ally.

Australia's current heavy airlift capability consists of six C-17A aircraft. The proposed sale of additional C-17As will further improve Australia's capability to deploy rapidly in support of global coalition operations and will also greatly enhance its ability to lead regional humanitarian and peacekeeping operations. Australia has the ability to absorb and employ these additional C-17As into its inventory.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

The principal contractor will be the Boeing Company in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq - Advanced Precision Kill Weapon System (APKWS)

WASHINGTON, Nov 12, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Iraq for Advanced Precision Kill Weapon Systems (APKWS) and associated equipment, parts and logistical support for an estimated cost of \$97 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a possible sale of up to 2,000 Advanced Precision Kill Weapon Systems (APKWS), weapon and test support equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, transportation, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$97 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale will improve Iraq's capacity to sustain security operations and strengthen its internal and external defense capabilities. The sale of APKWS will increase the Iraqi Army Aviation Command's ability to carry out operations against terrorist forces while significantly reducing risk to civilians.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be BAE Systems in Nashua, New Hampshire. There are no known offset agreements proposed in connection with this potential sale.

The proposed sale will involve multiple trips to Iraq involving U.S. government and contractor representatives for approximately 3 years for program management, program and technical reviews, training, maintenance support, and site surveys.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq – Foreign Military Sales Order II (FMSO II)

WASHINGTON, Nov 12, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Iraq for a Foreign Military Sales Order II (FMSO II) to provide funds for blanket order requisitions, under a Cooperative Logistics Supply Agreement (CLSSA) and associated equipment, parts and logistical support for an estimated cost of \$600 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a Foreign Military Sales Order II (FMSO II) to provide funds for blanket order requisitions, under a Cooperative Logistics Supply Agreement (CLSSA) for spare parts to support M1A1 Battle Tanks, M1070 Heavy Equipment Tactical Trucks, M88A1/2 Tank Recovery Vehicles, M113 Vehicles, M198 Towed Howitzers, M109A5 Self Propelled Howitzers, High Mobility Multi-Purpose Wheeled Vehicles (HMMWV), Heavy Expanded Mobility Tactical Trucks (HEMTT), heavy and light machine guns, common repair sets, and additional authorized items with associated equipment and services. The estimated cost is \$600 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

Iraq requires continuing procurement and repair of spare parts through the U.S. Government's FMSO II program in order to maintain its military fleets of tanks, vehicles, and other associated equipment. The spare parts and repair sets to be procured under this proposed sale are critical for maintaining these ground transportation vehicles in operational condition.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be General Dynamics Land Systems in Sterling Heights, Michigan. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require U.S. Government representatives or contractors to travel to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Greece – F-16 Sustainment

WASHINGTON, Nov 18, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Greece for F-16 sustainment and associated equipment, parts and logistical support for an estimated cost of \$188 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale on Nov 17.

The Government of Greece has requested the continuation of sustainment support for the Hellenic Air Force's F-16 aircraft, which includes the Electronic Combat International Security Assistance Program; International Engine Management Program; F-16 Technical Coordination Program; and Aircraft Structural Integrity Program; aircraft hardware and software support; repair and return; spare and repair parts; publications and technical documentation; support equipment; minor modifications; U.S. government and contractor technical and engineering support services; and other related elements of logistics and program support. The estimated cost is \$188 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a North Atlantic Treaty Organization (NATO) ally.

The Government of Greece needs this aircraft support to ensure its F-16 fleet is properly sustained and modernized to maintain interoperability with the United States and other NATO countries. The continued support and maintenance of Greece's F-16 fleet will ensure the effectiveness of its capabilities and ability to support future contributions to NATO operations.

The proposed sale of this support will not alter the basic military balance in the region.

The principal contractors will be Lockheed Martin in Ft Worth, Texas; and Northrup Grumman in Baltimore, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-46

Iraq – C-130E/J Sustainment

WASHINGTON, Nov 26, 2014 – The State Department has made a determination approving a possible Foreign Military Sale to Iraq for C-130E/J sustainment and associated equipment, parts, training and logistical support for an estimated cost of \$800 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a possible sale for a five-year sustainment package for the C-130E/J fleet that includes operational, intermediate, and depot level maintenance, spare and repair parts, support equipment, repair and return, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor logistics support services, and other related elements of logistics and program support. The estimated cost is \$800 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale of a C-130E/J sustainment package would allow the Iraq Air Force (IAF) to continue operating its C-130E/J aircraft beyond 2015. The IAFs limited maintenance capability necessitates the need for continued contractor logistics support. The continued support will assist the IAF in continuing to use the aircraft to provide humanitarian relief operations in various locations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin in Bethesda, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-59

Greece – CH-47D Chinook Helicopters

WASHINGTON, Dec 11, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Greece for CH-47D Chinook helicopters and associated equipment, parts and logistical support for an estimated cost of \$150 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Greece has requested a possible sale of 10 CH-47D Model Chinook Helicopters to include 23 T55-GA-714A Engines (20 installed and, 3 spares), 12 AN/AAR-57 Common Missile Warning System (10 installed and 2 spares), 12 AN/ARC-220 High Frequency (HF) Radios, 12 AN/ARC-186 Very High Frequency (VHF) AM/FM Radios, 12 AN/ARC-164 Ultra High Frequency (UHF)-AM, 12 AN/ARN 123 VOR ILS Marker Beacons, 12 AN/ARN-89 or AN/ARN-149 Direction Finder Sets, 12 AN/ASN-128 Doppler/Global Positioning System Navigation Sets, 12 AN/ARC-201D or AN/ARC-201E VHF FM Homing Radios, 12 AN/APX-118 Transponders, 3 AN/APX-118A Transponders, 12 AN/APR-39A(V)1 Radar Signal Detecting Sets, mission equipment, communication and navigation equipment, Maintenance Work Orders/Engineering Change Proposals (MWO/ECPs), aircraft hardware and software support, repair and return, spare and repair parts, publications and technical documentation, support equipment, minor modifications, personnel training and training equipment, U.S. government and contractor technical and engineering support services, and other related elements of logistics and program support. The estimated cost is \$150 million.

This proposed sale of these helicopters and support will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

This sale will contribute to both the United States' and Greece's defense and security goal of greater stability in the Balkans and the Levant regions by enhancing a critical helicopter lift capability. Additionally, this sale will facilitate greater interoperability of Greek systems both bilaterally and within NATO. Greece, which already operates CH-47s, will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of these helicopters and support will not alter the basic military balance in the region.

There is no principal contractor as the systems will be coming from U.S. Army stock. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of U.S. Government or contractor representatives to Greece at some point in future.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-58

Japan – AIM-120C7 AMRAAM Missiles

WASHINGTON, Dec 12, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Japan for AIM-120C7 AMRAAM missiles and associated equipment, parts and logistical support for an estimated cost of \$33 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Japan has requested a possible sale of 17 AIM-120C7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 2 Captive Air Training Missiles (CATMs), containers, missile support and test equipment, support equipment, spare and repair parts, publications and technical documentation, U.S. Government and contractor logistics support services, and other related elements of logistics and program support. The estimated cost is \$33 million.

This proposed sale will contribute to the foreign policy and national security of the United States. Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States. The U.S. Government shares bases and facilities in Japan. This proposed sale is consistent with U.S. objectives and the 1960 Treaty of Mutual Cooperation and Security.

The Government of Japan requires these missiles for national defense, regional security, inventory modernization, and U.S. interoperability. This sale will enhance the Japan Air Self-Defense Force's ability to defend Japan's territory and protect critical Japanese and U.S. installations. Japan, which currently has AIM-120C5 missiles in its inventory, will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Japan involving U.S. Government and contractor personnel for technical reviews, support and program management over a period of seven years. U.S. contractor personnel will be required in the region to conduct modification kit installation, testing, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Iraq - M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles

WASHINGTON, Dec 19, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Iraq for M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles and associated equipment, parts and logistical support for an estimated cost of \$579 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a possible sale of 1000 M1151A1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), 1000 M2 .50 caliber machine guns, and 1000 MK-19 40mm grenade launchers with universal mounts, commercial radios, communication equipment, repair and spare parts, publications and technical documentation, tools and test equipment, personnel training and training equipment, U.S. Government and contractor logistics and technical support services, and other related elements of logistics support. The estimated cost is \$579 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a strategic partner. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

The proposed sale of the M1151 HMMWVs would facilitate progress towards increasing the Iraqi Security Force's mobility and self-defense capabilities. Iraq will use the HMMWVs to increase the safety, effectiveness, and self-reliance of the Iraqi Security Forces. Iraq will have no difficulty absorbing these additional HMMWVs into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General in South Bend, Indiana. There are no known offset agreements proposed in connections with this potential sale.

Implementation of this proposed sale will not require U.S Government or contractor representatives to travel to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.

Transmittal No. 14-45

Iraq – M1A1 Abrams Tanks

WASHINGTON, Dec 19, 2014 - The State Department has made a determination approving a possible Foreign Military Sale to Iraq for M1A1 Abrams tanks and associated equipment, parts and logistical support for an estimated cost of \$2.4 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Iraq has requested a possible sale of 175 Full Track M1A1 Abrams Tanks with 120mm Gun modified and upgraded to the M1A1 Abrams configuration, 15 M88A2 Improved Tank Recovery Vehicles, 175 .50 Caliber M2 Machine Guns with Chrysler Mount, 350 7.62mm M240 Machine Guns, 10 .50 Caliber BR M2 HB Machine Guns, 10,000 M831A1 120mm High Explosive Anti-tank TP-T Ammunition, 25,000 M865 120mm TPCSDS-T Ammunition, 10,000 M830A1 120mm High Explosive Anti-tank Multipurpose Tracer Ammunition, 10,000 M1002 120mm Target Practice Multipurpose Tracer (TPMP-T) Ammunition, and 190 AN/VRC-92 Vehicular Dual Long-Range Radio Systems, 700 M1028 Commercial Utility Cargo Vehicles, Radios, Receiver Transmitters (RT-1702G), installation, ammunition, simulators, communication equipment, support equipment, fuel, transportation, spare and repair parts, site surveys, Quality Assurance Teams, special tools and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistical support services, and other related elements of program and logistics support. The estimated cost is \$2.4 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Government of Iraq and serves the interests of the people of Iraq and the United States.

Iraq will use the M1A1 Abrams tanks to facilitate progress towards increasing its ability to quickly mobilize and defend its border. Support of the M1A1 Abrams tanks for Iraq demonstrates the on-going U.S. commitment to support Iraq's continued development into a sovereign, stable, and long-term self-reliant strategic partner. Iraq will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of these tanks will not alter the basic military balance in the region.

The principal contractor is not known at this time and will be determined during contract negotiations. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately five U.S. Government and one hundred contractor representatives to travel to Iraq for a period of up to five years for delivery, system checkout, program support, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
